

Custom Potting Service

Container gardening is a great way to add color and appeal to your landscape. **Johnson Farms Custom Potting Service** is here to make your life easier by planting your containers for you. Our designers will aid you in choosing your plant palette and design aesthetic each year, then plant your containers with vibrant flowers and interesting foliage. You choose what works best for you.

In House Potting Service:

- Bring in your own containers. Or bring in exact dimensions of your pots, with photos if you desire. We also need the light exposure for each pot's location.
- Or purchase containers from our store – we have a great selection of affordable containers.
- Pick up your completed order usually within one week. (Exception: we do not do Custom Orders on Mother's Day weekend.) Or have them delivered for a fee.
- The price for custom planting is approximately **\$3.50/inch** of diameter of the top rim of the containers you choose. Price includes fancy annual plants chosen to suit your needs, potting soil, timed release fertilizer and labor.*
- (Containers must be empty of all past dirt and debris, or we will tack on an extra charge of \$10/pot.)

Custom Potting at Your Site

Invite Johnson Farms Custom Potting Service to your house or business. We'll create lush, colorful, custom plantings for your containers and install them for you. Your colors. Your style. All right at your home or business. Here's how it works:

- **Email us** to schedule your personal design consult. Please make sure to include a phone number in your email. (Email address is below.)
- For an initial **\$40 design fee**, one of Johnson Farms' experienced designers will meet with you at our home or office to discuss your color preferences, plants, and "vision." We'll work with you to develop a planting plan that will suit your growing conditions and your taste. **The non-refundable design fee will be applied to your planting cost.**
- Receive your written **cost estimate within 48 hours**. We base our estimates on approximately **\$5.00/inch** of diameter of all containers you desire to be potted. Price includes fancy annual plants chosen to suit your needs, potting soil, timed release fertilizer and labor.*
- **Our minimum fee per on-site project is \$150.**
- **Email** to schedule your planting. Johnson Farms will add your project to our planting schedule. The balance of your project cost will be due upon the day of completion of your planting. Planting crews are available to install projects on Monday, Wednesday and Fridays only.
- Relax and enjoy the beautiful results!

***Tropical plant choices** may increase cost depending on the types of plants desired.
(Fuel Surcharge may apply for locations **outside a 20-mile radius.**)
